

OBJECTIVE

Motivated Full Stack Developer with a strong foundation in MERN stack and a practical background in building enterprise-level applications. Skilled in backend logic, frontend interfaces, digital marketing integration, and automation. Seeking roles in Web Development, MERN Stack, or Full Stack Engineering where I can contribute high-performance solutions and continue growing.

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, Python, SQL, HTML, CSS, C++
- **Frontend:** React.js, Material UI, Redux, Bootstrap, Vite, Tailwind CSS
- **Backend:** Node.js, Express.js, Socket.io, Firebase, REST APIs, JWT Auth, Cron Jobs
- **Database:** MongoDB, Mongoose, MySQL, Firebase Storage
- **Dev Tools:** Git, Postman, Vercel, Render, Firebase CLI, Cloudinary
- **Digital Marketing:** On-Page SEO, Google Analytics, Tag Manager, Keyword Strategy, CMS Integration
- **Key Areas:** Full Stack Development, SaaS Apps, Realtime Systems, Admin Panels, Web Security, Analytics Dashboards

PROFESSIONAL EXPERIENCE

- **Maximize Market Research Pvt. Ltd., Pune** Jan 2024 – Present
Full Stack Developer
 - **TeamSync - HRMS Platform:** Architected and developed a full-featured Employee Management System (mmrems.com) using MERN stack with modules for Attendance, Leave, Payroll, Notifications, and Team Management.
 - **Real-Time Features:** Implemented WebSocket-based live attendance, manager approval workflows, cron jobs for auto clock-out, reminders, and salary processing.
 - **Custom Design System:** Built reusable UI components using Material UI and Vite, optimized for responsiveness and admin scalability.
 - **HDFC Payment Gateway Integration:** Successfully integrated and deployed HDFC gateway into company website, reducing payment charges from 7% to 2.5%.
 - **SEO Support and Technical Debugging:** Assisted with technical SEO optimization and CMS performance fixes across multiple internal sites.
- **Zeetron Networks Pvt. Ltd., Jaipur** Jun 2023 – Dec 2023
Research Engineer Trainee
 - **Data Visualization:** Built interactive dashboards in React using dynamic datasets and REST APIs.
 - **Collaborative Debugging:** Worked with backend engineers to ensure seamless integration and minimize API errors.
- **Freelance Projects** Jul 2022 – Present
Full Stack Web Developer
 - **Custom E-commerce Platform:** Developed product listings, cart features, payment integrations, and user auth using MERN.
 - **Portfolio CMS for Clients:** Created multiple portfolios and business landing pages with tailored CMS integration.

PROJECTS

- **TeamSync (MMR-EMS):** End-to-end HRMS web app with real-time attendance, leave policies, payroll module, role-based dashboards, salary calculation engine, and Firebase storage. Custom-built for Maximize Market Research.
- **Inventory Tracker:** Built for small warehouse businesses with item-based alerts and analytics dashboard.
- **Blogging Platform:** Developed blog CRUD system using React, Firebase, and Markdown editor integration.
- **Weather App:** Real-time weather forecast app using OpenWeatherMap API with dynamic charts and themes.

EDUCATION

- **Manipal University Jaipur** Aug 2020 - May 2024
B.Tech. in Computer Science and Engineering CGPA: 7.77/10
- **Government Polytechnic Kolhapur** 2018 - 2021
Diploma in Information Technology Percentage: 93.56%
